RESPONSE: 04* AGE: 9 Five acceptable names in all four groups.

Response did not occur at any age.

AGE: 13

AGE: 17

AGE: Ad

When Columbus sailed across the Atlantic, would he have been able to do the following things at about that time in history?

C. Would he have been able to read a printed book?

● Yes

○ No

○ I don't know.

D. Would he have been able to travel fifty miles an hour?

○ Yes

● No

○ I don't know.

Release #: UKH14
RKH14

NAEP #: 405005-1234

Theme: KNOWLEDGE.
Subtheme: History.

Objective: IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.
Subobjective: E. Understand some of the major historical developments.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

When Columbus sailed across the Atlantic, would he have been able to do the following things at about that time in history?

A. Would he have been able to send a telegraph message?

☐ Yes
● No

☐ I don't know.

C. Would he have been able to determine directions with a compass?

● Yes
☐ No

☐ I don't know.

Release #: RKH15
UKH15

NAEP #: 405048-1234

Theme: KNOWLEDGE.
Subtheme: History.

Objective: IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.
Subobjective: E. Understand some of the major historical developments.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

Which one of the following is the **MAJOR** goal of the United Nations?

○ To fight disease

● To maintain peace

○ To spread democracy

○ To fight the Communists

○ I don't know.

Release #: RKH18

NAEP #: 406009-1234

Theme: KNOWLEDGE.
Subtheme: History.

Objective: IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.

Subobjective: F. Understand some of the characteristics of the major systems of government, particularly the political system of the United States.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

Below are listed four of the many jobs that are done in a city.

Which one of the jobs is done by the health department?

○ Selling food
○ Directing traffic
○ Putting out fires
● Inspecting restaurants

○ I don't know.

Release #: RKP01

NAEP #: 402008-1

Theme: KNOWLEDGE.
Subtheme: Political science.

Objective: IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.

Subobjective: B. Understand some of the major relationships involving culture, the group, and the self.

Subobjective: F. Understand some of the characteristics of the major systems of government, particularly the political system of the United States.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

Overlap: 9
Package-Exercise: 02-04
National P-value:
RKP01 35.92

Timing: (in seconds)
RKP01 Stimulus: 17
RKP01 Response: 35
RKP01 Total: 63

Consider each of the following laws and decide which level of government (federal, state, or local) would be MOST likely to pass it. Fill in the oval beside "Federal government" if the federal government would pass it, the oval beside "State government" if a state government would pass it, or the oval beside "Local government" if a local government would pass it. If you do not know the answer, fill in the oval beside "I don't know."

A. Which one of the following would MOST likely pass an act to set up a central university with branches in several cities?

○ Federal government
● State government
○ Local government

○ I don't know.

B. Which one of the following would MOST likely pass an act to raise the rates for sending letters through the mail?

● Federal government
○ State government
○ Local government

○ I don't know.

(Continued)

C. Which one of the following would MOST likely pass an act to lower taxes on goods coming into the country?

● Federal government
○ State government
○ Local government

○ I don't know.

D. Which one of the following would MOST likely pass an act to increase garbage collection services?

○ Federal government
○ State government
● Local government

○ I don't know.

Release #: RKP08

NAEP #: 406035-234

Theme: KNOWLEDGE.
Subtheme: Political science.

Objective: IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.
Subobjective: F. Understand some of the characteristics of the major systems of government, particularly the political system of the United States.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

If a citizen of the United States wants to find a statement of his civil rights, in which one of the following should he look?

○ In the Bible

● In the Constitution

○ In the Articles of Confederation

○ In the Declaration of Independence

○ I don't know.

**Release #:** RKP09

**NAEP #:** 406006-234

Theme: KNOWLEDGE.
Subtheme: Political science.

Objective: IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.

Subobjective: F. Understand some of the characteristics of the major systems of government, particularly the political system of the United States.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

Release #: UKP10

NAEP #: 406023-2

Theme: KNOWLEDGE.
Subtheme: Political science.

Objective: IV. HAVE KNOWLEDGE RELEVANT TO THE MAJOR IDEAS AND CONCERNS OF SOCIAL SCIENTISTS.
Subobjective: F. Understand some of the characteristics of the major systems of government, particularly the political system of the United States.

Exercise Type: Multiple choice
Scoring Type: Machine
Administration Mode: Group
Stimulus Type: Text

Overlap: 13
Package-Exercise: 06-06
National P-value:
UKP10 76.77

Timing: (in seconds)
UKP10 Stimulus: 20
UKP10 Response: 10
UKP10 Total: 40

The Supreme Court ruled that it is unconstitutional to require prayer and formal religious instruction in public schools.

Which one of the following was the basis for its decision?

- ○ The requirements violated the right to freedom of speech.
- ○ There was strong pressure put on the Supreme Court by certain religious minorities.
- ● Religious exercises violated the principles of the separation of church and state.
- ○ Every moment of the valuable school time was needed to prepare students to earn a living.

- ○ I don't know.

Bob and Tom are playing. They have three balls, a game, and some other toys. But both Bob and Tom want to play with the same ball and they do not want to play together. So they begin to fight.

Which one of the following is the problem here?

- ○ There are not enough toys.
- ○ Bob and Tom should be working, not playing.
- ○ Bob and Tom should watch television instead.
- ● Bob and Tom don't know how to share their toys.

- ○ I don't know.

## SCORING GUIDE

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = TO MAINTAIN ORDER (PREVENT DISORDER) OR FACILITATE ORGANIZATION

Age 13 So that everyone would be well organized and not be disorganized (starting riots and yelling and throwing things).
If we didn't then there would be complete chaos.
To keep order in their community.
To keep society in order. So they will listen to the leader.
So that people don't get out of hand. If you don't have rules people wouldn't know what was right and wrong.

Age 17 So they will be more organized, and they will have order.
So they can keep things under control. It would get out of hand without them.
So that you will keep the society in one piece.
To keep everything under control and in good working order. To have something to follow when they get in a jam.
A society has rules and regulations so that people can be controlled in a reasonable manner. This of course doesn't mean that the people should be unordinarily suppressed by the government.
Each society has rules and regulations in order to keep a certain amount of order. Without some kind of order, things would all go as they please and our society would simply collapse.

Adults To keep order.
Society could not function without them. There would be chaos and we would return to the jungle and/or stone age.
Rules and regulations are needed to have less confusion on how and what to do.

11 = TO PROTECT FREEDOM, LIBERTY OR JUSTICE

Age 13 To make rules in the world so they have freedom.
So they can keep justice.
So everyone and their rights will be protected.

Age 17 So it can be run farely.
To protect the innocent, and to improve living conditions.

Adults In any society there are a few who would infringe upon the right of the majority. To govern the conduct of the few is the purpose of rules and regulations.
So that everyone's right are not violated. Civil and moral rights.

---

Categories and sample responses are listed below.

12 = TO PROTECT LIFE AND/OR PROPERTY

Age 13 To keep the society at as much peace as they can.
Because people can be dishonest. Rules are needed in society to control some people.
Because if there were no rules it wouldn't be safe to walk the streets that's why there's rules.

Age 17 To help cut down on crime rates. Or in other words, to help protect the people in a society.
So the people don't kill each other or rob others property.
For the benefit and protection of yourself and others.

Adults For maintaining some harmony and peace within a society.
To keep law and order just as the universe is regulated.
For people to use as a guide line so they may live with their fellow man more peacefully.
Everyone should observe rules and regulations otherwise there would be no law and order.

13 = OTHER ACCEPTABLE RESPONSES

Age 13 So people will know right from wrong.
To punish the wrong doers.
So people know what they can do and what they can't do.

Age 17 So everyone lives according to certain standards.
There would be standards and laws to live by without such laws, the society will collapse.

Adults 1) Rules commonly agreed upon and enforced make others actions predictable, therefore afford security. 2) Rules assure that new generations which are taught those rules can be assimilated by the society. 3) Rules, enforced, protect the majority of the society from a minority who would disrupt the commonly agreed on standard.
In order to keep the society running smoothly. You have to have a set of rules and regulations set up kind-of-as a set of boundaries as to how far each and every person has to abide by to keep the group from getting out of hand.
So that the people can have some type of system to follow and be governed by.

14 = TO PREVENT FRICTION: SETTLE DISPUTES. KEEP PEOPLE FROM BOTHERING EACH OTHER

Age 13 To help pepal get along together.
So the people get along better.

Age 17 No samples given.

Adults No samples given.

Categories and sample responses are listed below.

20 = STATES RESULTS OF RULES AND REGULATIONS, NOT REASON FOR HAVING THEM

Age 13 So the society will be a better place to live in.
Every society has rules, cause they want there society to be the best.
To make it more good for their society.
To try to have a better place to live in.
Age 17 To have a better city.
To make life better.
Adults No samples given.

22 = RULES ARE UNNECESSARY OR INEFFECTIVE

Age 13 I don't know. I don't think many of them are just. People should not be governed by such broad and general class laws. A person loses his identity in the world in such an environment. Public schools do this to me.
Age 17 People have rules and regulations because they think it will prevent crimes, but all it does is drive it underground, making it harder to catch the criminals.
Adults No samples given.

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Age 13 Because if they didn't it would do some.
To keep the States from fighting.
Because someone might not agree with a suggestion.
Age 17 So they can follow them and not have a bad organization. If they didn't this will probably get more people to join.
So a member can be considered a regular member and so the member has to participate in the activities.
Because the rich want to own everybody. The rich want to have everybody pay homage to them.
Adults In order to have any type of club or anything rite, must have rules to govern anything.
To keep certain people in or out.
Every society must have rules to govern themselves by.

# CHAPTER 4

## ATTITUDES THEME

The attitudes area has been divided into two basic topics. The first concentrates on the commitment to the rights guaranteed in the First Amendment. Respondents are required to make value judgments about a variety of situations in which the freedoms of speech, press, religion, petition and assembly are involved.

The second topic covered in the attitudes area deals with commitments that are more individual in nature. This topic involves attitudes toward participation in school and the community, sensitivity to the needs and feelings of others, respect for the views of others and belief in the rule of law.

Most of the exercises in this chapter were developed to measure Objective V, "Have a Reasoned Commitment to the Values That Sustain a Free Society."

In school would you be willing to help decide the following things?

B. Would you be willing to help decide what your social studies report should be about?

● Yes
○ No

○ I don't know.

D. Would you be willing to help decide which children you should work with to do a project?

● Yes
○ No

○ I don't know.

E. Would you be willing to help decide whether you need some extra help in a subject?

● Yes
○ No

○ I don't know.

A. Do you think that teenage students should help decide what courses will be offered in their school system?

☐ Yes

☐ No

☐ Undecided

B. Please give a reason for any answer you selected.

## SCORING GUIDE: PART B

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = COURSES ARE FOR STUDENTS; STUDENTS KNOW WHAT PEOPLE THEIR AGE WANT OR ENJOY AND SHOULD HAVE THE RIGHT TO HELP

Age 13 I think that people or teenagers should be able to make their own decisions. They should be told what they are good at and told whats available but not pushed into something they might not want.

Because they are the ones who are coming to study the courses and should have a choice in what they want to study.

Age 17 We're the ones taking the courses not the administration. You can't successfully force a person to take something that he doesn't uant to.

Students are much closer to goings-on than others and since they are in a position and are the ones who should benefit, their opinion or suggestions should be considered carefully.

Adults Yes, because each person has a subject he or she would like to follow.

Because they know what they would like to study.

11 = MOTIVATES STUDENT MORE--MAKES CLASSES MORE ENJOYABLE

Age 13 Yes, because they may be bored with what the teachers picked to teach them.

Then the students will want to come and they will learn more.

Age 17 If you help decide what courses you want, you can participate in them better, because you are interested in them. They are the classes you wanted, not somebody else's.

Because a lot more students would stay in school and nobody wants to take something they don't like and far better grades.

Adults It might help to keep more of them in school.

To cultivate interest in the school system and schooling in general.

I think this would encourage more interest in school and would teach teenagers what they want to know.

Categories and sample responses are listed below.

12 = IT IS A LEARNING EXPERIENCE IN TAKING RESPONSIBILITY--DECISION MAKING

Age 13 Because they should learn to make their own decisions and know what they're taking up in their school system.

It would give them or help give them a sense of responsibility.

Age 17 If the teenager will ever have an open mind to be able to make decisions, he will have to start early.

Adults Helping to decide will lend inspiration and substance to the students learning processes. This privilege encourages a sense of responsibility inherent in a decision making process.

13 = BETTER STUDENT-TEACHER RELATIONSHIP

Age 13 If they do it this way the teachers and the students are more apt to get along.

Age 17 I think they should so the teachers can find out what the students want to know about and help them to learn about it.

Adults I believe at times if they had more to say in school they would get along better with the teachers.

Teachers and teenagers should work together. It would help bring students and teachers closer together.

14 = KNOWLEDGE OF OR CONCERN ABOUT THE FUTURE

Age 13 They know what they want to be, and what they want to do for their later years in life. Not the school or the school system.

Because its up to the students to decide what they want to learn, because they might use what they have learned in the future.

Age 17 Because I feel it is the teenagers right to pick the courses he wants. It is his future he should have his say.

The majority of the kids should know what they need to learn in school and what will help them when they get out of school.

It is their life and they choose what they want to do after they are out of school so they should be able to choose the courses they need or think that will help them.

Adults By high school age a person should be able to know his own mind in choosing a vocation and courses to help teach that vocation.

Categories and sample responses are listed below.

15 = IMPROVEMENT OF CURRICULUM--BETTER EDUCATION

Age 13 Chances are it would come out the best of the courses.

Because there might be good suggestions for the courses that would be offered in the school system.

Because it would help the kids to have a better education through the years to come.

Age 17 Because what is good to take in school at one period of time may not be as good in a more modern time. Since the times change, our curriculum should also change.

If a student could help in selecting the course he would be able to receive a more rounded education.

Adults No samples given.

16 = OTHER ACCEPTABLE RESPONSES

No samples given.

20 = ANY REASON GIVEN WHEN STUDENT MARKS "NO" TO PART A, EXCEPT I DON'T KNOW

Age 13 Because the school should be the one to decide.

Because if they decide the courses it will be made of all the subjects they like and they will not learn what they don't like which they have to learn to get a good job.

Because there will be too much confusion.

Because if you let them pick they'd pick the easy subjects and would not be learning much.

Because they came to school to learn not to show the teacher or the principal how to run the school.

Age 17 Because if they did, there probably wouldn't be any academic classes. All the courses would be like Home Ec., gym, and classes which don't do any good to enter college.

I think the teachers should since they're more experienced and would probably know what students would need for the future.

Adults Because they have not lived as a worker or participating member of society and the community and are therefore not qualified to know what knowledge would benefit them in these roles.

Because they are too young to know what is best for them.

I think they should be given the courses they need, not what they want.

A more beneficial decision would come after adulthood.

---

682

Categories and sample responses are listed below.

21 = YES, BUT GIVES UNFAVORABLE CRITICISM OF EXISTING SYSTEM

Age 13 Because some teachers are too strict and that is why I can't stand school.

The students have been held in check as to choosing classes. We need more scholastic freedom.

Age 17 The school always gives a student more classes than he needs.

Adults No samples given.

22 = UNDECIDED TO PART A WITH NEGATIVE RESPONSE (REASON) IN PART B

Age 13 I really can't say because a lot of kids have no enthusiasm about school and they'll probably say "I don't want any subjects."

I really have no idea. Teenagers are kind of hard to work with. They would probably have some crazy ideas for the school.

Age 17 Students might pick courses that might not help them after they get out of school.

Adults Only if they know what course will be taken by them in their careers after school is over. Otherwise the course should be whatever will be best in any course they decide to take in life.

28 = VAGUE, NONSENSICAL AND OTHER UNACCEPTABLE RESPONSES

Age 13 Because it's better that way.

So that they could learn.

I have no ideas about the courses needed.

Because they don't like music or art or something and they don't have to take music or art.

Age 17 Yes, for languages like German or special course. Technical courses.

Students help decide the optional courses, but the main courses; english, history, math, should be automatic.

Adults The word "help" is the key. Although their suggestions should be heard and their interests recognized teen-agers are not well equipped enough in terms of maturity, sophistication, or judgement to competently determine their own curricula.

There are good and bad points to be considered.

Yes, so they can understand the books and what they mean.

29 = I DON'T KNOW

EXERCISE: RA802-01

Do you think that teenage students should help decide what courses will be offered in their school system?

RESPONSE: 00 AGE: 13 No response.

## SCORING GUIDE: PART B

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = RIGHT OR PRIVILEGE OF THE INDIVIDUAL TO LIVE WHERE HE CHOOSES

Age 17 Because nobody in the United States owns a neighborhood and cannot tell nobody where to stay.
Because people should have the freedom to choose any where they want to live.
This is supposed to be a free country!
Adults A person should be able to live anywhere he can afford.
Equal rights bill.
People in our country are free to decide where they want to live no matter where. People in a neighborhood have no right to decide who will be their neighbors because of our democratic way of living--everyone has their say--even as to where to live.

11 = DISCRIMINATION IS WRONG; BAD EFFECTS OF DISCRIMINATION

Age 17 No, because the people would have only the people of there class in the neighborhood.
There is overpopulation now. Not enough places for people to live. It isn't fair to discriminate, because of race creed or color.
Adults I don't believe in segregation of any form.
Because if they do many people would be without home and have no where to live.

12 = NEIGHBORS SHOULD NOT BE ALLOWED TO CHOOSE (RESTATEMENT OF STEM)
(NO SAMPLES GIVEN)

13 = OTHER ACCEPTABLE RESPONSES

Age 17 This is God's land; it was put here for all men.
Because they don't own the town.
Adults Anybody moving into a neighborhood all the neighbors should try to be friends with them.

Categories and sample responses are listed below.

20 = FEAR OF DEPRECIATION OF PROPERTY

Age 17 Who wants a bad neighborhood.
These people might cause problems in the neighborhood. Turn it into a dump.
Adults Because when you have invested money in a home and you want to sell it, an undesirable living in the neighborhood could lessen the value of your home.

22 = SPECIAL CONDITIONS--NEIGHBORS SHOULD HAVE SOME SAY ABOUT RACE, RELIGION OR ETHNIC GROUP

Age 17 I don't believe in integration of especially Negro's and whites but I do feel that some whites should not be allow to live in certain neighborhoods.
Adults Because there would be too much trouble if blacks and whites live together.

23 = SPECIAL CONDITIONS--NEIGHBORS SHOULD HAVE SOME SAY IN OTHER SPECIAL CASES

Age 17 Because it may be a person who sell dope and sell the neighbors children some.
Adults People should be allowed to decide if public housing will be built in their neighborhood.

24 = REFERENCES TO ZONING ORDINANCES OR ABILITY TO PAY

Age 17 No samples given.
Adults Ability to live in a certain neighborhood should be based only on whether one can afford to or has the desire to.

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Age 17 Yes, because they're the ones who have to live around them.
To keep unwanted people out of their neighborhood who might be a bad influence on the children in that neighborhood.
Adults There are a lot of undesirable people that I wouldn't like to live by me.
An individual reflects on his neighborhood and the neighborhood reflects on the individual.

29 = I DON'T KNOW

EXERCISE: RA804-01

Do you think the people who live in a neighborhood should be allowed to decide who can and cannot live in their neighborhood?

Release #: RAB05

NAEP #: 103002-1

Theme: ATTITUDES.
Subtheme: Belief in the worth of the individual.

Objective: I. HAVE CURIOSITY ABOUT HUMAN AFFAIRS.
Subobjective: C. Try to understand why other people think and act as they do.

Exercise Type: Longer answer
Scoring Type: Semi-Professional
Administration Mode: Individual
Stimulus Type: Audio-Verbal

Overlap: __9__
Package-Exercise: 06-05
National P-value:
RAB05-02 98.26

Timing: No paced tape was used in this individually administered exercise.

## SCORING GUIDE: PART B

Categories and sample responses are listed below.

NOTE: Part A was not scored separately. Responses to Part A were used as an aid in scoring Part B. The most common outdoor games named were hide and seek, tag, baseball, and football. The most common box game was Monopoly.

00 = NO RESPONSE

10 = TEACH HIM

Teach him how.
Tell him the rules and let him play.
Tell him what to do and be his friend.
Tell her how to play. Tell her there are these rules we got out of the books. Someone holds each end of the rope and someone jumps and if they miss then one of the people holding the end gets to go in the middle and jump.

11 = TELL HIM TO WATCH A WHILE (STATES OR INFERS LATER PLAY)

First you wouldn't let him play - you'd show him how and maybe he could catch on.

12 = PLAY A DIFFERENT GAME

Put toys up (guns) and play something else.

14 = OTHER ACCEPTABLE RESPONSES

Tell him he might get hurt.

20 = WOULD NOT LET HIM PLAY FOR REASONS OTHER THAN SAFETY

I wouldn't let him play.
If the game had already started or if it were ready to start, I wouldn't have time to teach him.

29 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

I'll explain to him how to play (hide and go seek) and if he doesn't understand I'd kick him out of the yard.
First he'd sit out and watch and if he still didn't get it, he couldn't play.

[illegible] = I DON'T KNOW

## SCORING GUIDE

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = SHARE THE FIELD - EITHER BY PLAYING TOGETHER OR TAKING TURNS

Take turns using it or let them play with them.
Play ball together in the playground.
They should take turns. They could decide by weeks. One week one class would play. The next week another class and so on. They should switch.
They should move over so they could have separate parts so one team could play here and another play there.
Let them have a turn sometimes.
Take up less of the yard.
They should let the other kids play there too. They should share their ball.
Ask the recreational department to find another place to play ball.

12 = OTHERS MAKE DECISION OR SOLVE PROBLEM

Mention it to the principal.
Ask if he can play someplace else or get another place.
Bill should say, "Go tell somebody that this is the only place to play." The school should make a play-ground for the kids.
If its a little place maybe the school could buy more land. If its a big place, Bill could share it or the teacher could take them to a park.

13 = OTHER ACCEPTABLE RESPONSES

Try to get a bigger field.
Talk it over with the other class.

22 = NO ACTION OR SELFISH ACTION

Keep on playing ball on it, they are the ones that got there first.
Stay where they're at.
Ignore them and just go on and play ball. Tell the teacher that they are messing up the ball game or they could switch off guys and let other people play, too.
Tell them to get out.
Bill has the right to play because he got there first.

Categories and sample responses are listed below.

21 = SPECIFIC STATEMENTS THAT BILL'S CLASS SHOULD COMPLETELY STOP USING THE FIELD

Stay inside during recess.
Don't play.
Study.

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Play in the yard.
Go to a different spot and the kids won't bug them.
Stop playing there and go somewhere else and find a better place.
Is Bill a teacher? If he's a boy, they should go away and if they don't then they should go into the room and write 100 times "I will go with Bill".

29 = I DON'T KNOW

Suppose a classmate of yours, who has been in this country a short time, is having difficulty making friends and keeping up with his school work because he knows very few words of English. What would you do?

*(If respondent answers "Nothing" OR no response is given in 10 seconds, go to next exercise.*

*If respondent gives a vague statement such as*
*"I would help him with his school work."*
*"I would help him speak English."*
*"I would make friends with him."*
*ask respondent to be more specific about HOW he would help the new classmate.*

*Stop if no response is given in 10 seconds.)*

Release #: RAB08

NAEP #: 527002-123

Theme: ATTITUDES.
Subtheme: Belief in the worth of the individual.

Objective: V. HAVE A REASONED COMMITMENT TO THE VALUES THAT SUSTAIN A FREE SOCIETY.
Subobjective: A. Believe in the fundamental worth of the individual and can justify their belief.
Subobjective: E. Are willing to act for the general interest.

Exercise Type: Longer answer
Scoring Type: Semi-Professional
Administration Mode: Individual
Stimulus Type: Audio-Verbal

Timing: No paced tape was used in this individually administered exercise.

## SCORING GUIDE

Categories and sample responses are listed below.

10 = NO RESPONSE

10 = HELP HIM TO LEARN ENGLISH OR HELP HIM WITH HIS HOMEWORK--SPECIFIC (Takes precedence over general response.)

Age 9 If he had trouble with English I would invite him over to my house and help him.
I would ask help from the teacher. I would make friends with him and try to teach him a little English.
Help him--put words on a paper to teach him.

Age 13 You could try to explain with your hands. You could teach him some simple words. You could explain math problems to him because you can write them on paper and explain them without much language.
Read the problems to him and explain them. Try to get other kids to help him and get in a group and make friends.

Age 17 Try to explain the best I could in his language what is going on. Try to find someone who speaks his language and have them get across to them.
I would try to teach him with flash cards. I would try to be a friend.

11 = HELP HIM TO LEARN ENGLISH OR HELP HIM WITH HIS HOMEWORK--GENERAL

Age 9 I'd help him out. I'd teach him English and how to make friends.
I'd try to help him by teaching him how to write and read. Teach him math.

Age 13 Help him learn more English and I would learn more about him and about his language.

Age 17 Explain it to him.
Teach like a tudor would, teach English, teach the basics.
Explain the English alphabet and the words.
Try to help him with the language, and help him to understand what is going on around.

12 = INVOLVE HIM WITH ACTIVITIES AT SCHOOL OR AFTER SCHOOL--SPECIFIC (Takes precedence over general response.)

Age 9 I'd ask him to play with me at recess.

Age 13 Help him to learn more English. Have him over for parties so he can learn. Having him join in groups in school.

Age 17 No samples given.

Categories and sample responses are listed below.

13 = INVOLVE HIM IN ACTIVITIES AT SCHOOL OR AFTER SCHOOL--GENERAL

All ages I think I would do things with them, so they could know the same people I know. To help them with their work, I think it would first take a little time on my part.

14 = ATTEMPT TO MAKE FRIENDS WITH HIM OR HELP HIM DEVELOP FRIENDSHIPS WITH OTHER CLASSMATES--SPECIFIC (Takes precedence over general response.)

Age 9 Be friends, play games, go to church, have him over to my house for lunch, go out on a date, have a sewing lesson.
Help him out. I'd introduce him to some of my friends and help him with school work.

Age 13 I'd just talk to him and ask him where he lives and maybe go see him.
Be friendly with him. Help him make friends. Don't pick on him.
I'd probably just be his friend and try and help him get other friends and maybe teach him a little English.
Invite him to my house and we would talk.

Age 17 I'd try to help him by getting him acquainted with the other classmates and tell them that he was having problems.
I'd introduce him to a few of my friends and encourage him to keep trying.
First of all, I'd try to introduce him to all of my friends. I'd probably go out and try to show him different things and try to help him out in sports and things like that. As far as school subjects are concerned, I'd help him as far as I could from what I know.

15 = ATTEMPT TO MAKE FRIENDS WITH HIM OR HELP HIM DEVELOP FRIENDSHIPS WITH OTHER CLASSMATES--GENERAL

Age 9 Try to make friends and help her with her studies.

Age 13 I'd help him make friends.
Try and help him to make friends and teach him what we do around here.

Age 17 Help him according to how he wanted to be helped - make myself available to help him.
Try to be a better friend to him and try to understand him better. Do more for him than I would an ordinary friend, because he needs lots of extra attention.

16 = OTHER ACCEPTABLE RESPONSES

All ages Help him by telling the teacher what he said.

Categories and sample responses are listed below.

22 = RESPONDENT TELLS WHAT OTHERS COULD OR SHOULD DO WITHOUT GETTING PERSONALLY INVOLVED

Age 9 No samples given.
Age 13 I'd refer him to the English teacher, and maybe he could teach him English.
He could go into reading class.
Age 17 I would suggest that he study harder for a while to improve his work. Ask him to try to do his best.
Tell him to take English classes. Also, there should be a free tutor from the National Honor Society.
I think he should find a friend he could rely on and who could help him. No matter what his nationality he is a person, he can make friends with someone.

23 = NEGATIVE ATTITUDE TOWARDS STUDENT WITH LIMITED KNOWLEDGE OF ENGLISH

Age 9 Tell her to go back to her country because she can't make friends in this country.
Age 13 No samples given.
Age 17 Avoid him.

24 = RESPONSE WHICH INDICATES RESPONDENT WOULD TAKE NO ACTION

Age 9 Not much you could do.
I wouldn't do anything. I just try to keep up with my own.
Age 13 No samples given.
Age 17 Don't think there is much I could do because I'm a loner myself.

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Age 9 I'd try to help.
Ask him to help me with mine.
Tell my mommie.
I'd try to study real hard.
Age 13 Depends on the person.
Well, if I like him, I'd probably make friends with him and teach him a few words so he would make his own friends.
Age 17 No samples given.

29 = I DON'T KNOW

EXERCISE: RAB08-01

Suppose a classmate, new in this country, is having trouble making friends and keeping up with his school work because he knows little English. What do you do?

RESPONSE: 00 AGE: 9 No response.

**Timing:** No paced tape was used in this individually administered exercise.

## SCORING GUIDE

Categories and sample responses are listed below.

000 = NO RESPONSE

101 = LACK OF FUNDS

Age 13 No money.
Because they don't have any money otherwise they wouldn't be living there.
Can't afford it--unemployed.
All the family money is used for food, clothing and where they live now.

Age 17 If they do move they have to pay more, people don't have the money.
They haven't got the money.
Because they are poor and they don't have a reliable source of getting the money needed to move.
Not enough money because they don't have good jobs.
They couldn't meet the standard of living in the wealthier neighborhood.
They're trying to save their money for their children's education and there isn't enough money to do both--save and move.

Adults Economic reasons.
Low income.
Since their educational level is low it tends to stifle them and they are unable to get a better job.
Higher rent.

102 = LACK OF EMPLOYMENT (IN NEW PLACE)

Age 13 Can't find any jobs there.
If they move they won't be able to find better jobs.
May not get a job.

Age 17 Jobs not available.
The job they have--maybe they couldn't get another job where they moved.

Adults Maybe the area doesn't have the work for them.

103 = LACK OF EDUCATION

All ages They are poorly educated.
They can't get the education to better themselves.
They may not have the education to get better jobs to get the money to get out.

---

Categories and sample responses are listed below.

104 = DISCRIMINATION

Age 13 They might be afraid people might laugh at them if they're poor and they move to a different city.
Other neighbors may not accept them.
Color of people. Maybe not be accepted into new neighborhood where they would like to move.
Because of race.
Some people are scared because where they would move, the people would look down on them and wouldn't think much of it.

Age 17 They might feel they wouldn't fit in.
Maybe they tried to move away but some landlords won't accept them because of their race.
They might not be accepted and people in the neighborhood might not let them buy the house.
If they'd be dark--perhaps the white community wouldn't accept them.
Real estate people wouldn't sell them houses in certain areas because property value will go down.
Because of their race or ethnic background. This may prevent them from moving into other neighborhoods.

Adults They may think their children would be shunned by "better" people.
Fear of prejudice.
Possibly the better neighborhoods wouldn't let them in--in some places.

105 = SECURITY--CLOSE TO FRIENDS, RELATIVES, JOB, SCHOOL

Age 13 Probably cause the kids that they have don't want to make friends again.
Most of their friends are living there.
They like the people living around them.
They are afraid of new people.
Might not want to change schools.

Age 17 Want to stay in their groups.
Feel more familiar with there own.
Most of their friends are in that area. Its more their type of people.
Relatives living in same area. Being brought up in this area.
They feel more secure in their own neighborhood.
Just don't want to move--friends, neighbors, etc.

Adults Good neighbors--I like the people there. They are mixed blacks and white.
Family and friends in the same area.
Social--all the people they know are there, people they have ties with--probably relatives.

Categories and sample responses are listed below.

106 = ACCESSIBILITY TO JOB IN OLD NEIGHBORHOOD

All ages Their jobs are right next to where they live.
Might lose their job if they move.
Its closer to where they work and they don't want to move.
Their job might be located close to where they are living.
If the job didn't pay well--it might also be near a poor neighborhood and the people might stay there because they were close to their jobs. Traveling would be expensive.

107 = LACK OF HOUSING IN NEW NEIGHBORHOOD

Age 13 The good areas are over populated and no room for more people.
In the big cities there's not enough room to get out of the slums to go anywhere else--or sometimes they don't care.
There might not be any more available space.
There may not be enough rooms like if they have a lot of children.
Age 17 Can't find a better place to live.
No place to move.
No other urban areas where there are enough houses around.
Lack of housing in an area.
Adults Better housing is not always available to them.
Lack of housing opportunities.

108 = OTHER ACCEPTABLE RESPONSES

Age 13 They may live by a store and if they move the store may be far away and they will have problems.
Sometimes they are professional persons who want to live there to help out.
Some people live in a fairly decent house, a little below average, and spend money on clothes and eating out, where if they moved out of there they probably couldn't do that.
Age 17 Some people who can afford it want to go there and help the less fortunate.
Some people might be ashamed to move to a good neighborhood because of their furniture.
During the earthquake, the new houses were destroyed more than the old houses, they're better built.
Adults No samples given.

---

Categories and sample responses are listed below.

251 = NEGATIVE OR STEREOTYPED ATTITUDES ABOUT PEOPLE IN SLUM AREAS

Age 13 Some family's husband use their checks on things like beer and alchohol.
They want everybody to feel sorry for them.
Don't work to get money to move.
Some are too lazy and don't like to move out.
They don't want to move, face reality.
They like the way they live.
Age 17 Don't want to start over.
Environment causes them to lose their ambition to move to better neighborhood.
Some people just don't care.
Most of them are too lazy to work.
They'd just as soon the government help them out--unemployment checks.
They wouldn't feel comfortable at a high standard of living.
Adults Chances are if they did move into a better neighborhood, it wouldn't be better for too long of a time.
Some of them just like drawing welfare.
Scared they will have to pay for something.
They think they will be taken off of welfare.

252 = OTHER UNACCEPTABLE RESPONSES

Age 13 More chance of being burglarized in wealthy areas.
Real estate guys will trick him into paying more money for poor house.
Age 17 They would not know where to move or how to do it.
Adults Local laws, such as residency laws, keep them from moving.

298 = VAGUE OR NONSENSICAL RESPONSES

Age 13 They don't have anything to move it in--like a truck.
People who don't have good houses usually get sick and sometimes they stay sick for a long time.
Put some big sticks up for them to hang their clothes.
Age 17 Social class (society).
They wouldn't have the supplies to condition themselves.
Adults Don't have fathers.
Jobs.
Environmental background.

299 = I DON'T KNOW

```

## SCORING GUIDE: PART B

Categories and sample responses are listed below.

00 - NO RESPONSE

10 - CIVIC DUTY

Age 13 No samples given.

Age 17 Because I think every body should get together and help the people in a place like this.

Yes, because Americans are responsible for the welfare of others.

Because the living standards are terrible and I feel that it would be my responsibility.

Adults I believe it is the reponsibility of people to upgrade their community in any way possible.

11 - CONCERN FOR WELFARE OF PEOPLE LIVING THERE (PHYSICAL AND/OR PSYCHOLOGICAL)

Age 13 Because it isn't fair that those people should have to live like that.

Changed--not very good for community cause people would get sick in those houses. Not right for people to live that way.

Its slums, diseases are there.

I think its a disgrace to have people living there. It's a breeding place for bacteria and kills people off. It isn't very pretty for the neighborhood either.

Age 17 To help people all we can.

People shouldn't have to live in such run down conditions.

People living there are poor and unhappy.

Adults It's an eyesore. It's not something that I'd want to look at more than once. It's a waste of land. It's unsanitary to live in. If there were children there its no place for them or adults. It's a fire hazard and they could be killed there.

12 - NEED FOR NEW FACILITIES (PARK, HOMES, SCHOOL)

Age 13 To make better use of the empty space. To build better houses.

The property could be made into something more useful like a park or even industries or a self-improvement place for kids who dropped out of school.

Age 17 No samples given.

Adults This property should be bought and developed into a park.

Categories and sample responses are listed below.

13 = CONCERN FOR APPEARANCE OF THE COMMUNITY

Age 13 Because it doesn't give a very good picture of U.S.
It brings down property values.
It's not nice to see slums like this - it looks like a city dump.
Age 17 An area like this reflects the whole community.
Because it is a mess. It shouldn't be that way.
I don't like to see these kinds of towns.
For the people in them and for the better progress of the community, it should be cleaned up to look more presentable.
Adults It would down grade a community. I don't think a city needs to have areas like this around it.
It makes the whole neighborhood look bad.

14 = OTHER ACCEPTABLE RESPONSES

Age 13 It looks like a slum area and the house needs fixing.
I feel there's no need for slums or old ram-shacked houses.
Age 17 It's discriminating against the earth not to--the earth is supposed to be free and non-polluted and things like this make it look like a dump.
Adults No samples given.

20 = ANY REASON WHEN STUDENT GIVES NO TO PART A

Age 13 It looks nice.
Because it's not my neighborhood and why should I care?
Age 17 Wouldn't be any concern of mine.
Adults No, I finally believe that why people live in the conditions they do is because they want to.

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Age 13 It's ruining our land--the whole United States.
Clean up, new houses.
Age 17 Actually I wouldn't care unless it gave the city a bad name. If it were an isolated spot, I couldn't be too concerned about getting it cleaned up.
Every town has it's eyesores.
Adults No samples given.

29 = I DON'T KNOW

## SCORING GUIDE: PART C

Categories and sample responses are listed below.

000 = NO RESPONSE

101 = INCREASED OPPORTUNITY FOR EMPLOYMENT

Age 13 Find jobs--or better jobs for those people.
When people come in and ask for jobs and are refused because of prejudice or something they have to live here.
Overpopulation, if better housing were built they would have a chance.
Age 17 Help people find jobs so they can help themselves.
Help people who live there to get jobs and train them to make conditions better for themselves.
Adults Public funds could be used to help individuals who are unemployed to work in this area and beautify it. Recipients of welfare might help in project giving feeling they are working for what they receive.

102 = ELIMINATION OF DISCRIMINATION

Age 13 No samples given.
Age 17 No samples given.
Adults Try to eradicate some of our racial prejudice, which sometimes hurt minority races and religions.

104 = LEGAL PROTECTION

All ages No samples given.

105 = IMPROVEMENT OF COMMUNITY SERVICES

Age 13 They could put in electricity and telephones.
Have medical attention to the sick and to the old.
Put in sewer systems and household appliances.
A garbage man should come collect the trash. The houses are falling apart.
Age 17 Try to give them sanitation.
Adults No samples given.

Categories and sample responses are listed below.

### 106 = PROVISIONS FOR QUALITY EDUCATION AND TRAINING

| | |
|---|---|
| Age 13 | Better opportunities to learn trades if they want to. |
| | Better schooling. |
| Age 17 | Show people how to improve their family life, diets, etc. |
| | Teach the people and let them get good jobs. |
| | By setting up an organization for these people to help them understand why these conditions exist and help them do something about it. |
| Adults | Vocational training for minorities or the deprived. |
| | Show them better ways of utilization of their money. |

### 107 = RECONSTRUCTION OR REPAIR OF HOUSING IN THE AREA

| | |
|---|---|
| Age 13 | Tear it all down and build it all new. |
| | Move people there out. Knock down these houses and build new ones. Move people back in. |
| | New housing project. |
| | They could be rebuilt or painted to make it better. |
| Age 17 | Money should come from government--either state or federal for housing. |
| | Contributions by public to rebuild or remodel homes. |
| | If the city would spend more money fixing up the slum areas. |
| | The city should spend more money fixing up the slum areas. |
| Adults | Remove shacks and replace with low income housing. |
| | Tear all out and rebuild if the government would help. |

### 108 = GOVERNMENT AID (ANY LEVEL)

| | |
|---|---|
| Age 13 | Having the government donate money. |
| | Give them welfare. |
| Age 17 | Divide the state budget, reallocate tax funds to help some. |
| | Have acts passed by city or town to provide money and put it toward rehabilitation. |
| | Urban renewal. |
| Adults | Call someone in Government to come and see what programs are for neighborhood help. |

### 109 = REORDERING OF NATIONAL PRIORITIES

| | |
|---|---|
| Age 13 | The government should spend money on poor people rather than on space stuff. |
| Age 17 | Take more money from the defense budget and use it to clear up poverty. |
| | Put more money to help poor people and less on war. |
| Adults | Stop sending money to foreign countries and take care of our own first. |

---

Categories and sample responses are listed below.

### 113 = TEAR DOWN HOUSES AND BEAUTIFY (MUST MENTION BOTH)

| | |
|---|---|
| Age 13 | Take the houses apart, put it on a truck and take it away. Clean up the stumps. |
| Age 17 | Move that old house or building and clean it off there. |
| Adults | No samples given. |

### 115 = OTHER ACCEPTABLE RESPONSES

| | |
|---|---|
| Age 13 | Try and place the family in good housing developments. |
| | Help support them. |
| | Take a collection to build apartments for those people. |
| Age 17 | If small groups in each community organized to clean up things like this--gave money and themselves to helping. |
| Adults | Get a newspaper reporter to draw attention to the condition so that people will want to do something about it. |

### 251 = CHANGES THAT DO NOT ASSURE THAT CONDITIONS OF POVERTY WILL BE REMOVED

| | |
|---|---|
| Age 13 | They should tear down the building and maybe recycle the wood. Pass a law that places couldn't look that way. |
| Age 17 | Eliminating welfare. Welfare is what puts people in situations like this. |
| | Getting the people together and form committees to do it. |
| Adults | Get the people that live there together and talk on it. |

### 252 = CHANGES WHICH REFLECT A LACK OF CONCERN FOR PEOPLE IN POVERTY AREAS

| | |
|---|---|
| Age 13 | Could be run out or go somewhere else. |
| | The people should remove the poverty themselves. |
| Age 17 | By giving them so much money to fix things up and if they don't get it fixed, put them in jail. |
| | If other people live in shacks, there should be no reason why they shouldn't. |
| | They could condemn it and make the people move out and tear the houses down. |
| Adults | No samples given. |

Categories and sample responses are listed below.

### 253 = THERE IS NOTHING THAT WE CAN DO

| | |
|---|---|
| Age 13 | There's nothing that could be done because if they moved the houses, the people would be homeless and they couldn't afford any better houses anyway. |
| Age 17 | It's hard to say what social conditions are behind it. If it were simple to solve, it would have been done a long time ago. I probably wouldn't do anything. |
| Adults | No samples given. |

### 254 = MAJOR PHYSICAL CHANGES

| | |
|---|---|
| All ages | Tear down the houses. |
| | Break down the old buildings. |
| | Burn them. |
| | Have it all removed. |

### 255 = BEAUTIFICATION CHANGES

| | |
|---|---|
| Age 13 | Remove all the trash. |
| Age 17 | Clear out the ground, remove stumps. |
| | Have a clean up campaign. |
| | Cut the weeds. |
| | Community funds collected to enhance the beauty of the community. |
| | You can fix the grass. |
| Adults | Call city to have them clean it up. |

### 298 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

| | |
|---|---|
| Age 13 | Bull-dozer. |
| | Talk to police about what they're going to do about it. |
| | Having more money. |
| Age 17 | Work as individuals. |
| | Volunteers could do it. |
| Adults | Get the people living there to have pride in their home. |
| | Not have the houses as close together. |

### 299 = I DON'T KNOW

National P-value:
RAB11-01 87.15

Timing: No paced tape was used in this individually administered exercise.

## SCORING GUIDE

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = INITIATES ACTION WHICH SHOWS CONCERN

Tell my mother to cook something else.
If possible, you should feed him something else.
Feed him the rest of the stuff instead of hamburgers.

12 = SHOWS INTEREST AND POSSIBLY CONCERN

Ask him why his religion won't let him?
Ask him how come he don't eat meat? Then tell my mother.
I think I'd ask her how come she don't eat hamburger.

13 = OTHER ACCEPTABLE RESPONSES

Not eat meat either.
Don't give him meat.
He would't have to take any of the meat.

20 = SHOWS DISRESPECT

Tell him that meat is good for you. It makes you healthy.
Tell him to go home.
I'd pretend I didn't hear him.
Well - tell him that's the only thing we're going to have and my mom, she won't fix nothing else.
I'd tell him - "You're not in India, so you can eat it here." If he can't eat, he can starve if he wants.

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Nothing.
Go out and play.
Forget about eating.
Let him have some meat and if he ask for it give it to him.
I don't like hamburger either. I'd get some solomi to eat.

29 = I DON'T KNOW

EXERCISE: RAB11-01

A friend from India comes to dinner. Your mother is making hamburgers and your friend tells you his religion won't let him eat meat. What should you do?

A. Suppose one of your friends disagrees with the rest of the group about something.

Do you think he should change his mind when he sees he is outnumbered?

○ *Yes (Go to B)*
○ *No (Go to B)*
○ *Undecided (Go to B)*
○ *No response (After 10 seconds, go to page 17.)*

B. Why do you think so?

*(Stop if no response is given in 10 seconds.)*

Release #: RAB13

NAEP #: 501017-1234

Theme: ATTITUDES.
Subtheme: Belief in the worth of the individual.

Objective: V. HAVE A REASONED COMMITMENT TO THE VALUES THAT SUSTAIN A FREE SOCIETY.
Subobjective: A. Believe in the fundamental worth of the individual and can justify their belief.

Exercise Type: Longer answer
Scoring Type: Semi-Professional
Administration Mode: Individual
Stimulus Type: Audio-Verbal

Timing: No paced tape was used in this individually administered exercise.

## SCORING GUIDE: PART B

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = RIGHT TO DISAGREE; TO HAVE ONE'S OWN OPINION

| | |
|---|---|
| Age 9 | They have a right to what they think.<br>No, because he has a right to think, to give his own opinion. If he agrees with something he has a right to do that, too. |
| Age 13 | I think he has a right to his opinion. He doesn't have to change his mind because of the others. |
| Age 17 | Because he is entitled to his own opinion and should stick to it and not follow everyone else. |
| Adults | He has a right to his own beliefs.<br>Because his got his equal right of opinion same as anyone else.<br>Freedom of choice. |

11 = STAND UP FOR INDIVIDUAL BELIEFS.

| | |
|---|---|
| Age 9 | You should do as you feel best about something and not what others want. |
| Age 13 | If he really believes, he should not change his mind.<br>He should not change thoughts just because of numbers.<br>He should go for what he believed in. |
| Age 17 | Give his feelings and stay with them.<br>Stick with his feelings.<br>If he thinks he is right he ought to stand his ground. |
| Adults | A person should stick to his personal convictions even if the whole world is against him.<br>He is an individual and should stick to his own convictions. |

13 = HE MAY BE RIGHT; WE MAY BE WRONG

| | |
|---|---|
| Age 9 | Because other kids might be wrong and she might be right.<br>Maybe if he has a different idea, it might be better. |
| Age 13 | Because he might be right, and the others wrong.<br>He might be right. |
| Age 17 | Because his viewpoint may have some merit.<br>He has his own opinion and doesn't mean he's wrong because he's outnumbered. |
| Adults | Majority doesn't necessarily mean the right opinion or rule. |

---

Categories and sample responses are listed below.

14 = CONDITIONAL: UNLESS DISAGREEING WOULD HOLD UP IMPORTANT GROUP TASK

| | |
|---|---|
| Age 9 | We might not be able to do stuff if he doesn't agree with us. |
| Age 13 | No samples given. |
| Age 17 | No samples given. |
| Adults | Unless group action is necessary, he is entitled to his opinion.<br>(No) He is entitled to his opinion but if it impedes the goals and progress of the group and the group is demoralized in principle then he should concede. |

15 = CONDITIONAL: UNLESS DISAGREEING WOULD RESULT IN VIOLENCE OF SOME TYPE

| | |
|---|---|
| Age 9 | I think he should change his mind because there might be a fight.<br>Cause of the people in my class are mean and they might beat him up. |
| Age 13 | No samples given. |
| Age 17 | He could get hurt by the group if he will not agree with them.<br>He might get in trouble if he's outnumbered. Beat-up. |
| Adults | No samples given. |

16 = CONDITIONAL: UNLESS THE VIEWPOINT HAS BEEN PROVEN INCORRECT BEYOND DOUBT

| | |
|---|---|
| Age 9 | If the person who disagrees could prove it, it'd be all right.<br>He should if he finds out a different answer. |
| Age 13 | If he thinks he's right he should stick to what he believes until and unless he is proved wrong by an accurate source.<br>Both ways to look at it. He shouldn't change his mind if he isn't proven wrong. |
| Age 17 | If he feels that he is right, he shouldn't. If he is shown proof that he is wrong he should.<br>You must stick with what you believe unless they can prove what he says is wrong. |
| Adults | If a person is proven wrong then he should change his mind.<br>He should not change his mind if its a matter of principle but if its a matter of fact and he is wrong, he should change his mind. |

Categories and sample responses are listed below.

17 = OTHER ACCEPTABLE RESPONSES

Age 9 Because I think I could make them change their minds.
Age 13 He should give his reasons for the disagreement and he should try to give in a little bit with the class and the class should give in a little bit with him and they should come about mid-way with their terms.
Age 17 If he feels strong enough. Only way we can have change is for someone to disagree.
Adults No samples given.

20 = RESPONSES WHICH INDICATE HE SHOULD CHANGE HIS MIND WHEN HE SEES THAT HE IS OUTNUMBERED--EXCEPT RESPONSES IN CATEGORIES 14, 15 OR 16

Age 9 Because she could have more fun if she agreed with the rest of the group.
The others are more important.
Age 13 Well he's wrong.
If he sees his friends he should go along with the others.
He should take his own opinion but the majority rules.
Age 17 If everybody else agrees why shouldn't he agree.
The whole group shouldn't have to change, he would change for the majority.
Adults If he wants to get along he'd better.
If everyone in the group disagrees with him, it should be he is wrong.

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Age 9 Cause all the others are.
Well when somebody else agrees with somebody it should just be that way.
Age 13 Its his answer.
To make the group whole.
I can't picture what that would be like.
Because he'd be cheating.
Age 17 (No) Thats his thought--what he wants to do. If forced he might get mad.
Adults Its not that big an issue.

29 = I DON'T KNOW

EXERCISE: SAB13-03

Suppose one of your friends disagrees with the rest of the group about something. Do you think he should change his mind when he sees he is outnumbered?

## SCORING GUIDE: PART B

Categories and sample responses are listed below.

### 00 = NO RESPONSE

### 10 = EQUALITY AND DIGNITY IMPORTANT

Age 13 All men are created equal.
Equal opportunities are a must.
Age 17 I think that the race of a person doesn't mean that he should get the job and the other shouldn't. I think all people should have an equal opportunity to get a job.
People of all races are equal. Color is (should be) the least important fator in determining a person's ability for a job.
Adults Everyone is equal no matter their color.

### 11 = ABILITY IMPORTANT FACTOR

Age 13 Should depend on how good the person can do the job.
If a person is qualified it doesn't matter what race he is.
Would you care to have a black genius or a retarded white?
Age 17 If a person is skilled in that profession it shouldn't matter what his race is.
Ability and promptness should be the main factors in the employer's attitude. Race, religion, etc., should not hinder anyone.
Adults It's an injustice to discriminate against a person who has the ability, yet is of a different race.
No, race will not effect the performance of the job.

### 12 = LEGAL PROTECTION AGAINST DESCRIMINATION

Age 13 Everyone is guaranteed the right of freedom and this is one of them.
According to the law everyone who is equally qualified must have an equal chance for employment.
Age 17 According to law made by the people no one is to be discriminated against due to race, religion, color, etc.
It's against the persons constitutional rights if you refuse to hire him or her because of race. Its also against the law.
Adults Theoretically, and constitutionally, a person should not be judged according to race, religion, or national origin.
It should be part of one's civil rights that one should not be deprived equal economic opportunity because of race.

### 13 = RACE DOES NOT (SHOULD NOT) MATTER (NO SAMPLES GIVEN)

---

Categories and sample responses are listed below.

### 14 = OTHER ACCEPTABLE RESPONSES

Age 13 One race can do as good as the other.
All races need a job.
Age 17 No, because everyone has got to work to support their family and to get by today.
Any man or woman no matter what the race is can do a comparable job because humans are all built the same. The color of a skin shouldn't matter.
Adults Working together will help to reach better understanding.
Our democratic system can be made more perfect by not discriminating.

### 15 = YES, BECAUSE OF PAST AND PRESENT DISCRIMINATION

All ages Race should definitely be a factor in hiring employees. Blacks have been victimized in our society since 1620, and its about time they got a fair shake. If ratios are needed to end racism in our society, so be it.

### 20 = DECISION BASED ON PERSONAL EXPERIENCE RATHER THAN RECOGNITION THAT HIRING SHOULD BE BASED ON EQUAL OPPORTUNITY

All ages I'm white and work with colored people who are good workers.

### 21 = CONDITIONAL (Except Category 11)

Age 13 Depends on what the job is.
It would be bad for married people who cannot have money to feed their families for lack of jobs.
Age 17 People should not be hired for outdoors night time jobs. They are not so visible to motorists.
Adults No samples given.

### 22 = ANTI-RACIAL STATEMENTS

Age 13 Certain races tend to be poor workers.
Age 17 If a person owns a place he should be able to hire who he wants. A large amount of people won't go into a place if a nigger is working there and this ruins business.
Yes, to a point as most blacks don't want to work anyway.
Blacks don't have the knowledge to work.
Yes, whites before blacks.
Because some people just aren't as capable as whites.
Adults No samples given.

Categories and sample responses are listed below.

23 - UNSUPPORTED ASSUMPTIONS

| | |
|---|---|
| Age 13 | Morale of employees should be taken into account. Some people can't work together effectively.<br>All companies are now forced to hire non-whites to the same percent as the non-white population. |
| Age 17 | Hiring different races usually causes disturbances in the business and usually disputes over discrimination.<br>Some races may be better at a job than others. For instance, Negro doctors and nurses would be better working with their own race. |
| Adults | Sometimes white people will not work on the job if colored people are working on the same job with them. |

24 - INTREPRETS RACE AS A CONTEST OR SPEED FACTOR

| | |
|---|---|
| Age 13 | So you can get the work done faster.<br>Racing should not be a job, it should be just for sports.<br>Because you don't have to hire someone just because they are fast. In some jobs you have to be slow and careful. |
| Age 17 | Races should be for volunteers, not hiring. Races are for fun even though they do involve a lot of time and money.<br>It should be the quality not quarity that one is measured by. In some jobs speed is essential. |
| Adults | Unless its piece work and some people are slower than others. Neatness should count. |

28 - VAGUE, NONSENSICAL AND OTHER UNACCEPTABLE RESPONSES

| | |
|---|---|
| Age 13 | I am black.<br>Because I'm not prejudiced. |
| Age 17 | No samples given. |
| Adults | No samples given. |

29 - I DON'T KNOW

EXERCISE: RAB16-01

Please explain why race should or should not be a factor in hiring a person for a job.

SCORING GUIDE: PART B

Categories and sample responses are listed below.

99 = NO RESPONSE

10 = TO GAIN KNOWLEDGE; TO HEAR DIFFERENT POINTS OF VIEW; TO GOVERN MORE WISELY

Age 17 He should consider the reasons for the different opinions and concerns of the minority of the people. This will give a broader view of circumstances as to what is right and what is wrong.

Just because a person's opinions or views are different from the majority, doesn't mean that they should not be heard and considered. They could be just as helpful as others.

Adults I feel he should consider opinions from informed sources as well as the uninformed majority.

He may learn some new ideals from the peoples and they may be helpful to him in his future work.

11 = MINORITY OPINION SOURCE OF GOOD IDEAS

Age 17 Because all the time the majority is not right. And this person, or people, may have a strong point or an idea than may the people whom it may concern.

Yes, because the people might bring up something that is very important to the matter.

I think if the opinion is correct, the congressman should try to persuade the majority into thinking the correct way. The majority is not always correct.

Adults Maybe new ideas would do some good.

all points of view matter. Often in the crack of a rock, blooms a flower.

They might have a good suggestion that would help some people even if it didn't go along with the majority.

12 = POLITICAL CONSIDERATIONS--MAY NEED POLITICAL SUPPORT FROM MINORITY, OR BECAUSE OF PAST SUPPORT

Age 17 They may be able to influence other people of their views and if so the congressman might lose a lot of votes.

He might not get to be a congressman if he ignores the people, because it is the people who elected him as congressman.

Adults No samples given.

---

Categories and sample responses are listed below.

13 = EVERYONE SHOULD BE REPRESENTED--BUT NO REASON GIVEN (EXCEPT DUTY)

All ages All people should have a right to say what they want and to have their opinions listened to even if they're not a part of the majority.

Needs to talk to everyone.

Congressman is elected by all the people and he represents all the people. The minority may also become the majority in time.

He should be concerned about the opinions of all the people not just part of them.

18 = OTHER ACCEPTABLE RESPONSES

Age 17 All of the people should have a part in the government since this is a democratic society. The silent majority also is represented but not by campaigning.

Adults They may not be the majority but they may be deeply affected by the congressman's decision.

20 = THE MAJORITY IS RIGHT OR THE MOST IMPORTANT; IMPLICATION THAT MINORITY OPINION WOULD BE HARMFUL

Age 17 Because as long as he had the majority on his side to become congressman, that's all he needs. Because some people are not going to vote for him no way.

If the majority want something they should get it because it will benefit more people.

He must do what the majority of his region wants him to do.

Adults Majority wins.

He should not because most of the time decisions are made by votes of the majority.

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Age 17 Because you and the congressman and the people.

Because I suggested the correct answer.

Adults Otherwise the majority will always lead.

He just should.

29 = I DON'T KNOW

EXERCISE: RAB17-01

Should a congressman pay attention to the opinions and concerns of people whose views are different from those of the majority?

You are going to see the film, Vandalism: Crime or Prank? The film begins with some boys damaging a statue. Watch the film so that you can answer some questions based upon the film. Please do not turn the page until told to do so.

(Continued)

A. Should Mr. Norris have done something about what he saw taking place in the park?

○ Yes

○ No

○ Undecided

B. Please give a reason for any answer you selected. Write your reason on the lines below.

## SCORING GUIDE: PART B

Categories and sample responses are listed below.

### 000 = NO RESPONSE

### 101 = CRIME WAS BEING COMMITTED

Age 13 Because it was a crime and they were destroying something that was put their for themselves and others to enjoy.
The boys did a crime and should be punished for it. Mr. Norris should go tell the police because they could do it again.
It's a crime no matter who does it. Mr Norris is trying to stop crimes in his parks.
Because it was a crime and he should call the police.
Age 17 Since they broke the statue and he caught them, he should report them to the police, because it is against the law to destroy public property.
Because they committed a crime and broke the law. No matter how small in value they still broke the law.

### 102 = TO PREVENT MORE TROUBLE - FOR BOYS OR SOCIETY

Age 13 Because if they did that it might lead to worse things. If the man didn't tell.
Yes, because the boys could get into worse trouble if they weren't punished.
Because if they go and destroy something else, it might be yours.
The vandalism should have been reported to discourage any actions of the same nature.
Age 17 Because the kids will just keep doing it and in time will end up getting caught. Thus leading to a life of imprisonment. If people let kids get away with everything, when they grow up the world around us will be disastrous to live in.
To stop further damage and to straighten out the boys.

### 103 = PUBLIC PROPERTY

Age 13 Because it wasn't right for those boys to do a thing like that. Because after all it was built so everyone could look at it.
Because they were destroying government property.
Age 17 Because the boys were destroying public property and it was his duty as a witness and a citizen to report it.
Because they were damaging property which didn't belong to them.

---

Categories and sample responses are listed below.

### 104 = CITIZEN'S DUTY

Age 13 Because it was his right as a citizen.
Because it is your duty to do so, even if they are friends or not.
I feel he should have gone to the police. He was just trying to be a good citizen and that's what he should be.
Age 17 It's his duty as a good citizen to report this act of crime. If it wasn't stopped the vandals would repeat acts similar to the one they did.
I feel he should have done something about it. It's his duty as a citizen and as a person or you'll live with it the rest of your life.

### 105 = OTHER ACCEPTABLE RESPONSES

Age 13 Because it was a terrible thing to do and something should be done about it. Like throwing them in jail.
I think he should have done something because it just isn't right to destroy a statue. They're interesting to look at and probably not to easy to make.
Yes, because they did something wrong and should be punished.
Age 17 There was something done wrong. It needed correcting.

### 251 = MR. NORRIS COULD HAVE ENDANGERED HIMSELF

Age 13 He would probably make enemies and the kids may do something to his house and family.
If he would have said something the boys might have ganged up on him or something.
Age 17 The act had already been done. There was nothing he could have done to prevent the act. He could have had several assault charges and an assault and battery charge by the kid he grabbed. He legally had no right to do what he did.
He had no business interfering with it, he could of been hurt or seriously injured.
No, it would do more damage to him and his relationship with the boys family. The boy would turn against him and will do something to him to get back at him and got into more trouble.

Categories and sample responses are listed below.

252 = BOYS WERE HAVING FUN

Age 13 He did it when he was a boy too, just like they did. I say no because this was just a prank that the boys did and it really isn't a crime.

Age 17 I feel like Mr. Norris should think like, "boys will be boys and everything is made for a purpose", I think misdemeanor things should be overlooked.

It's more important to keep friends than to make enemies. Mr. Norris wouldn't have liked it if it was his own son who was only fooling around. It's normal for boys to get into trouble.

253 = NOT HIS CONCERN

Age 13 Because he should have [illegible] them alone and let the law tend to it.

Because he should mind his own business.

I dont think he has the right to say the boys are supposed to be punished. It's not his job to say that the boys are wrong.

Age 17 I feel he should have just left it alone.

254 = COULD DAMAGE BOYS' FUTURE

Age 13 He wants to help his friends.

Age 17 Because turning those kids in for a stupid prank could hamper their chances of employment. He could have told the parents.

255 = TELLS WHAT MR. NORRIS SHOULD DO, NOT WHY

Age 13 He should have called the police to do something about it.

I think he should have informed the parents and find out what they could do. If the parents did nothing, I would have a talk with Timmy and find out why and who helped him do it.

Age 17 I feel that Mr. Norris should have done something about what he saw in the park. He didn't have to call the police, but he should have at least consulted the parents of the child.

He should have talked to the boy's parents, not to the police.

Categories and sample responses are listed below.

298 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Age 13 Because he thought it was a crime and his wife did not think so.

Because the boys were bad.

I think Mr. Norris is right about the boys. And what the boys did. And the things about it.

Age 17 Because it hasn't happened to me so, I don't know how he feels being one of his friend's son.

I feel that if the kids were so dumb to have somebody catch them they should pay for what they did.

I am not sure which I would do, even knowing the right thing to do.

They didn't have to wreck a statue that would be hard to replace. If they just tripped it over or moved it somewhere, it wouldn't be so bad.

299 = I DON'T KNOW

All ages I don't know what I would do.

Because the boys that were damaging the statue were friends of the family and if Mr. Norris had told on them, he'll be losing friends and making enemies. On the other hand, this was government property in which the boys knew better than to destroy. I don't know what I would do.

## SCORING GUIDE: PART D

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = INFORM PARENTS (HIS OWN)

Age 13 I would tell my parents and let them decide or not to do something about it.
I would at least tell my mother.

Age 17 It would be very hard to report him to the police. I would probably tell my parents and ask them what to do.

11 = REPORT ACT TO AUTHORITIES (POLICE, PARK ATTENDANTS, PRINCIPAL OF SCHOOL)

Age 13 I would report it to the police and tell them that I saw my friend doing it, but I wouldn't tell my name.
I would turn them in and hope it would stop them from doing something like that again.

Age 17 I would turn him in to someone that can handle him such as the authorities, because the law is the law in any way it is broken.
I would try and stop him but if he had already committed the act I would turn him into the police or to the person whose property he had destroyed and let them decide what to do with him.
I would probably turn them in if in a case of losing a friend, I wouldn't mind turning him in because he may be taught not to do it again.

12 = MAKE FRIEND PROMISE TO REPORT IT ON HIS OWN TO AUTHORITIES OR TO PARENTS

Age 13 I would talk to my friend and convince him to report it to the police. And let my friend know I saw it.
I would talk to the person and find why they did it. I would probably try to talk the person into telling the police. If they didn't I would.

Age 17 I would tell him if they didn't give themself up for doing it, I would.
I would first go to see and talk the friend who committed vandalism and try to get him to turn himself in.

---

Categories and sample responses are listed below.

13 = STOP HIM FROM CONTINUING DAMAGE BY THREATENING TO REPORT HIM TO THE AUTHORITIES OR PARENTS

Age 13 I would tell him not to do that anymore or I'd tell on him.
I would go talk to them and threaten to go to someone of authority if I heard of or saw them doing anything like that again.

Age 17 I would tell him that if he did it again, I would report him to the police. If he did it again, I would report him.
Ask him to please stop, and say if he didn't, then I would inform his parents and if the act was destructive enough, I would then go to the police.

14 = TRY TO REASON WITH HIM OR TALK HIM OUT OF IT

Age 13 Ask him to stop because I could not force him to stop.
I would tell them to get out of there and go home.
I would probably talk to him and reason with him to try and make him stop doing these things. If he didn't stop I would talk to his parents and if they didn't stop him I would report him to the police.
If it was a crime by one of my friends I would try to talk him out of doing it in the first place.

Age 17 Consult with him and find out what was behind the act. He probably would no longer be my friend if he couldn't think about such things and their results.
Probably talk to them about it and try to help them. Perhaps after a discussion they would decide to replace the statue.
I would ask them why he is doing it and what he accomplish by doing it. If he doesn't stop, I'll try something else.

15 = INFORM THE FRIENDS' PARENTS

Age 13 I would tell their parents about it.
I would tell his father and let him do what he wants.
If I saw one of my friends committing vandalism I wouldn't waste my time to tell them to stop I would just go and tell his or her mother or father.

Age 17 Talk to his parents, but I wouldn't say anything to the police.
I would first go to his parents and explain what I saw him doing and tell his parents that it was a crime and it had to be reported.

Categories and sample responses are listed below.

16 = REPORT IT TO A PERSON WHO UNDERSTANDS TEENAGERS (COUNSELOR, SOCIAL WORKER, MINISTER, TEACHER)

Age 13 Discuss the crime with someone you know and can trust before telling. But I think I would tell someone about it.

I would tell someone who could help my friend to understand what he or she had done wrong. The friend maybe would understand.

Age 17 No samples given.

17 = OTHER ACCEPTABLE RESPONSES

Age 13 I wouldn't want to report it, but I will. Because they're not supposed to do things like vandalism. I think its against the law.

I would have to tell on them because they would probably hate me after that, but I would tell on them. I don't think they should get away with it.

Call someone to break it up and make them stop it, no matter how little the damage was.

Age 17 Try and influence them to stop such a crime and not destroy public property.

I would do something to try and stop him or her. I wouldn't call the police though, because they are my friends. I dont think it would be my place to turn any one in. Police make things too complicated.

Find out why they did it and probably report them anonymously if I could.

18 = PHYSICALLY TRY TO STOP HIM

Age 13 Catch him and take him down to the police station and lock him in jail.

I would sneak up behind them and grab him. Then I would take him to the police and tell them what he had done.

Age 17 I would tell the police, because I would jump on him and whip him.

If he were a good friend I don't know if I'd turn him in, but I'd try to straighten him out, some way. Like maybe bust him in the mouth.

---

Categories and sample responses are listed below.

20 = NOT GET INVOLVED - MENTIONS FRIENDSHIP

Age 13 I would forget it because I would not want to lose my friendship with him or her.

If it was a close friend I probably wouldn't because I would be afraid to hurt him.

I would want to tell the police, but if it were one of my friends, I wouldn't tell nobody.

Age 17 I don't think I would say anything, even though I should, because a friend is the most important thing we have here, good or bad.

21 = NOT GET INVOLVED - MENTIONS FEAR OF PERSONAL HARM

Age 13 I would forget the whole thing. If my friend found out I told on him he might get mad and get other people to help him beat me up.

If it were me, I would forget it because if they saw me and I told, they would know who to get after.

Age 17 I wouldn't tell because if they knew you were the only one that saw them then, if they got caught and put in jail they would say you were with them or else they would try and hurt you.

22 = NOT GET INVOLVED - MENTIONS OTHER REASON OR NO REASON GIVEN

Age 13 I don't know, but I would probably act like I never saw him do anything.

Keep away, and not say anything.

Stay away!

I wouldn't tell on them. I don't think.

I wouldn't turn him in because he wouldn't turn me in.

Age 17 Nothing. He does what he does and I do what I do.

Nothing. I would do nothing because though I feel there should be a law against vandalism, I don't care to any great extent about any one else's property except my own. In the case if the property was mine, I would probably break the kids neck or call the police.

I most probably would not tell. But if the problem arises I will find out.

Categories and sample responses are listed below.

23 = IF STUDENT THINKS VANDALISM IS SERIOUS HE WILL TAKE AN ACCEPTABLE ACTION; IF NOT, HE WON'T

Age 13 It depends on if the statue or whatever is of any great importance. If it is, then your friend must be reported.
If the statue was worth alot of money, I would contact the police, but if the statue is not worth very much I wouldn't do anything.
Age 17 I guess it would really depend on how serious the vandalism was. If it was serious, I would turn him in, if it wasn't so serious, I wouldn't.
If I could tell it was an intentional act and was destroying something of value, I would report him. If it were accidental, or he was destroying something of little or no value, I would not report him.
It depends. If they were destroying something like a statue, I'd tell them to stop because it wasn't right. But I wouldn't make a big thing about a little writing on a wall.

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Age 13 I would have a talk with him and find out why and who was the leader of this crime.
I would go up and ask them why they were doing it. And listen to their side of the story.
I would be caught between a gap, friendship or doing the right thing, reporting it to the authorities. I would be undecided.
I would try and stop them, because I would not want them to get caught by the police.
Age 17 I would ask him what was he doing breaking up things and let it go at that.
I guess ask him why he did it. Maybe I would do something if his reason wasn't good.
I'd either join in and help him or tell him to stop. I don't think I would have reported him thouga.

29 = I DON'T KNOW

All ages I wouldn't know what to do.
I'm not sure. I don't know how I would act until I was faced with the problem.

## SCORING GUIDE: PARTS A&B

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = RIGHT TO FREEDOM OF WORSHIP

Age 9 Jane, everyone has the right to go to the church of their own choice.
It is a free world and they can pick the religion they would like to pick.
Age 13 You must not do that. Everyone has a right to worship as they want in U.S.A.
Age 17 She's wrong. Each person has his right to his own religion.
Freedom of religion in this country. No concern of hers where she goes. I feel like the person's decision to go to the church he wants to.

11 = SHOWS RELIGIOUS TOLERANCE

Age 9 Stop it. Some people have different religions. Everybody is different but you shouldn't make fun.
The world is suppose to be united. You should respect others no matter what your religion is.
Age 13 Don't put down his religion. Because his religion is as important to him as hers is to her.
Tell her no matter what religion you are, that's no reason to make fun because hardly no two people are alike.
Age 17 Tell Jane she was very narrow minded and belonged back in the 13th century. I personally know what is to be discriminated against because of my religion.
I don't think you should be prejudiced. It doesn't make that person any less of a person.
It's not up to her to judge. That's just what this person believes in. Because religion doesn't judge a person.

12 = SHOWS CONCERN FOR FEELINGS OF INDIVIDUAL ONLY

Age 9 Twinkle, twinkle little star, what you say is what you are. Cause she's been saying ugly stuff to other people, and I'd pay her back for what she'd been saying.
That isn't nice to do that. Because you shouldn't tease other people.
Ask her how she'd like to be made fun of.
Age 13 Tell her it wasn't any of her business. Because she is probably embarrassing him.
Age 17 Leave the kid alone. She is cutting the kid down and that's not right.

---

tegories and sample responses are listed below.

= VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

ge 9 Nothing.
I don't really know. Don't worry. So the other person won't cry.
ge 13 Nothing--it's none of my business.
I wouldn't say anything. I'd slug her. I'd slug them to get their attention. Then they would listen to you, otherwise they wouldn't.
Keep your mouth shut. Your religion is as dumb as hers. I don't think it's funny to make fun of someone's religion.
Her religion is stupid enough.
ge 17 I'd probably laugh.
Nothing. Because she's making a fool of herself.
I'd probably keep out of it and not say anything. It'd just cause a big fight or something.

## SCORING GUIDE: PART B

Categories and sample responses are listed below.

**000 = NO RESPONSE**

**101 = RIGHT AS A CITIZEN--FREE SPEECH**

Age 13 Because citizens who are younger than the legal voting age should have the right to express their views on political issues.
Because anybody ought to have the right to write to elected government.
Because you are a member of the nation and should be able to express your feelings.
Because this is a free country and you have the right to speak and to do what is right.

Age 17 Because every citizen has a right to speak and express what he feels is right, it is part of the Constitution. Age should not play any part in a citizen's rights.
I think even the young have a right to voice their opinions. After all, we're part of society, too.
They should have a right to freedom of speech no matter how old they are.

Adults Freedom of speech whether you are 16 or 26 years of age.
Any citizen should be able to speak out.
Everyone, no matter what age, has a freedom of speech and is entitled to his opinion.

**102 = WAY OF EXPRESSING OPINION OR PARTICIPATING IN GOVERNMENT**

Age 13 Because if they can't vote they got the right to right letters to tell them what they think.
So they can express their opinions.
Because we can not vote so we should be able to tell them what we think.
It is because though we cannot vote it doesn't mean we cannot think.

Age 17 A person under voting age cannot express his opinion by electing the official he likes so he has to have some way to make what he wants known.
If writing a letter is the only means of communication a young adult has in getting a point across, well I think he/she should.

Adults If they can't vote they should be able to write letters to elected government officials.

Categories and sample responses are listed below.

**103 = THEIR LIVES ARE AFFECTED BY POLITICAL DECISIONS**

All ages Yes because they are citizens and they are guided and are under government laws so they should be able to express their views on issues that concern them.
I selected my answer because some of the political issues involve people who are too young to vote.
Citizens who are younger than the legal voting age are still subject to the decisions of the elected government officials.
They have to live under the law of the land so they should have the right to express there views.

**104 = FUTURE BENEFITS; FUTURE LEADERS**

Age 13 Citizens who are younger than the legal voting age eventually become old enough to vote. If they are governed by the U.S. they have a right to express their feeling about the government.
They should because some day they will be adults and they should learn to express their thoughts and opinions.

Age 17 Yes, because soon this person will be of voting age, and perhaps a leader in politics. To say no would be discouraging them, and later they might not be interested.
Because soon they too will be voting and if you don't start to learn about your government early, when your time comes to vote, you wouldn't know how to go about it. Get involved.

Adults Yes because they are future citizens and voters. Their opinions should be respected now as well as when they are of voting age.
If you stifle a young individual, when he reaches voting age he might withhold his comments.

**105 = TO INFORM OTHERS; THEIR IDEAS ARE GOOD**

Age 13 Because the government should listen to young boys and girls to see what their ideas are.
Yes because I think people should know how the younger generation feel.

Age 17 They are citizens, and they may have good ideas which could be beneficial to the people.
Some young people are more informed about politics than older people.

Adults They know whats going on from studies in school from newspapers and other people. So they are able to form an opinion and have the right to express it.
Yes, many of the youngsters are truly interested in political issues and many of them have very good ideas.
They may have fresh ideas and helpful suggestions.

Categories and sample responses are listed below.

106 = TO HELP ELECTED OFFICALS

Age 13 Because to give them more confidence in the election. To tell them how you feel about them.

I think they have a right to tell the government official, that they stand behind them.

Age 17 Yes, because to let their government know how the young people feel.

Because then they know that younger citizens are paying attention to the government.

A child that is interested in politics at their age should be allowed to write to an official to let him know that he does pay attention and agrees for what he stands for.

Adults No samples given.

107 = YOUNG PEOPLE SHOULD PARTICIPATE IN THE GOVERNMENT

Age 13 I believe that all people should have their opinions expressed. Everyone should have their say.

Because we should have something to do with it.

Age 17 The government is for all the people of a country and if any member is dissatisfied with the way things are being run it is his right and duty to let government officiels know. Age has nothing to do with it.

Adults A person of any age should express their views on government. It is important that they are interested enough to do so.

108 = OTHER ACCEPTABLE RESPONSES

Age 13 They could learn more about politics if they could write to officials.

I think they should because it gives them a sense of being part of something and also in being recognized in society.

There could be something that a lot of the younger ones need or want.

They could have a solution for any question you might have.

Age 17 Just because you can't vote doesn't mean you don't have questions.

Adults By doing so they may learn more about the government. My children have done this in school. The answers they received helped them understand more.

Categories and sample responses are listed below.

251 = NOT EXPERIENCED OR MATURE ENOUGH TO EXPRESS THEIR VIEWS

Age 13 Because if they are too young to vote they are too young to tell their feelings.

No because they are too young to know what's going on.

They may not know much about it.

Because they are too young, not old enough to except the responsibilities of life.

Age 17 No, the younger citizens aren't mature enough to know the full meaning or value of the issues, thus making it necessary.

They don't because they might not know about these political officials.

Adults Sometimes a younger person is really not able to express in the right way what he or she is trying to say.

He is probably not mature enough.

252 = NO ONE WILL PAY ATTENTION TO THEIR VIEWS-- WILL HAVE NO EFFECT

Age 13 If they are not allowed to vote then writing letters wouldn't do any good.

Because everyone tells us kids to just to get out of the way so I know the government won't lison to us.

Why not? It really doesn't matter.

Age 17 Because their response would be worthless for the reason that they cannot vote. The representatives hardly listen to the ones who do, why would they listen to a person who couldn't.

Adults They would have no need to write letters to express their opinion, because the officials wouldn't pay any attention to their views because they are under age.

255 = CONDITIONAL--IN SOME CASES THEY SHOULD BE ABLE TO EXPRESS THEIR VIEWS

Age 13 Everyone who is old enough to form an opinion correctly should be able to write letters to publicly express their views on an issue.

I think every body has a right to his own opinion providing he knows what he's talking about.

Age 17 I think if they're old enough to know what's going on they should be allowed to do so.

I feel that younger citizens should have the right to express their views as long as they understand what they are arguing about pertaining on their political views.

Adults No samples given.

Categories and sample responses are listed below.

296 = THEY DON'T HAVE THAT RIGHT

Age 13 Because they have no say so in the government because they aren't old enough.

Because all they are doing is bugging the government. They can't vote, so don't let them write letters to the government.

Age 17 I feel the younger age group is too young to have that much to do with any type of government.

Adults They don't have no rights.

298 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Age 13 If there not the right age I don't think they should vote.

Because may be one presadent only lost by one vote and the younger children wanted him and not the other one.

You have to go to the government and report.

Age 17 Yes, because they have the right to vote as much as the parents do.

Adults "The child is father of the man."

I don't feel that young people are that interested in government elections. Therefore, I don't think they have any views to express.

299 = I DON'T KNOW

## SCORING GUIDE: PART B

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = FREEDOM OF SPEECH; CONSTITUTIONAL RIGHTS; SHOULD BE ABLE TO EXPRESS VIEWS

Age 17 This is a denial of the right of freedom of speech.
Everyone should be able to voice his opinion publicly. He has the freedom of speech.
Adults Freedom of speech.
As a citizen we have the right to voice our opinions and views even if they are for or against the government.
This is basis freedom of speech as set forth in the constitution.

11 = DUTY TO SPEAK VIEW; EVERYONE SHOULD HAVE A VOICE IN THE GOVERNMENT

Age 17 No samples given.
Adults Criticism is important in change of any kind. A policy should not be accepted simply because it is a policy. A person who is a responsible citizen has an obligation to express his views.

12 = ADVANTAGES OF SPEAKING VIEWS

Age 17 I feel that the rebel is the most constructive part of a dynamic society. Without changes, we would still be in the dark ages. The troops abroad represent the policies made by the people of the United States. Therefore, the people should be encouraged to express their view points publicly.
Adults No samples given.

13 = LEGITIMATE CONDITIONAL

Age 17 According to the Constitution of the United States, everyone, regardless of opinion is allowed the freedom to express his views publically as long as he does not advocate violent governmental overthrow, which this example does not.
Adults Anyone should be allowed to speak out and criticize if it does not hurt the security of the country.

---

Categories and sample responses are listed below.

14 = OTHER ACCEPTABLE RESPONSES

Age 17 It's unfortunate that in a country such as the U.S., people should be condemned for expressing their views. Views on this statement are personal convictions, and no one should be forced into a different mode of thinking. We can't always prohibit things uncomplementary to the U.S.
Adults No samples given.

20 = CONDITIONAL

Age 17 Freedom of speech states that anyone can express their views publicly as long as it is not in profane language. I believe in the same.
Adults I think we should be able to criticize publicly only to a certain extent.

21 = "AGREE" + PATRIOTIC STATEMENTS

Age 17 You need troops abroad to halt the battle from spreading to other countries.
The people shouldn't criticize the troops in military after all they's helping us.
Adults No samples given.

22 = "DISAGREE" + STATEMENTS THAT OUR GOVERNMENT'S MILITARY POLICY SHOULD BE CRITICIZED

Age 17 I disagree because I don't think they are being used right. They are killing all our men as well as others. There will soon be no men left and the women will have no husbands.
Adults No samples given.

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Age 17 No. Because people could say wath there one's.
Adults They would influence a lot of other people's thinking.

29 = I DON'T KNOW

**EXERCISE: BAR05-01**

Do you agree or disagree with the following statement: Anyone who criticizes the use of U.S. troops in military action abroad should be prohibited from expressing his views.

## SCORING GUIDE: PART B

Categories and sample responses are listed below.

20 = NO RESPONSE

10 = FREEDOM OF THE PRESS; CONSTITUTIONAL RIGHTS

Age 13 I believe in the freedom of the press.

Because we have freedom of speech and the right to criticize the government.

Age 17 The Bill of Right, the first ten amendments to the Constitution guarantee freedom of the press to all American citizens.

Freedom of press for all newspapers and magazines.

The constitution provides freedom of the press.

Adults Freedom of speech and press.

Freedom of the press is and should be a jealously guarded freedom. If we take away the right of the press to criticize the government, we have taken a dangerous step toward government censorship and an ensuing dictatorial form of government.

11 = RIGHT TO SAY WHAT THEY FEEL

Age 13 They should have freedom to tell their readers what is happening in their state or country.

Age 17 They should because that is there opinion and people should have a right to voice there opinion.

I think we all have the right to criticize and the press has the right to print it. You should decide for yourself if it is true or false criticism.

Adults Every publisher has the right to print anything critical of the government or whom ever it wishes.

12 = NEED TO BE INFORMED AND/OR RESULTING CITIZEN ACTIONS

Age 13 Because people have to know what is happening.

We want to know all about our elected people so we can have the best.

Age 17 Who will know about the government officials if they don't publish it?

They should let the people in on what kind of government official he is or will make.

Adults To let the public know.

This may be a way of making people aware of what is going on.

Newspapers and magazines are two sources where citizens, especially those in a democracy and are decision makers, can learn how responsive, truthful, and honest their representatives are.

Categories and sample responses are listed below.

13 = HELP THE OFFICIAL; HELP THE COUNTRY

Age 13 Yes, if he is doing a bad job he should know about it.

Age 17 It helps keep them in line.

Maybe by someone criticizing they might try and start doing things better. They have a lot to straighten out.

Adults No samples given.

14 = LEGITIMATE CONDITIONAL

Age 13 The article may be printed if it is true (Freedom of Press)

Age 17 If it is true, why not?

Adults The public should know what's going on unless it effects the country's security.

15 = CONDITIONAL WITH RESPECT TO LIBEL (LIMITS FREEDOM OF THE PRESS)

Age 13 No samples given.

Age 17 It is a free country and the press should be able to criticize whomever they want providing they aren't trying to slander the person.

Adults Freedom of the press as long as it is not slander.

16 = OTHER ACCEPTABLE RESPONSES

Age 13 If that magazine or newspaper couldn't, this country wouldn't be a democracy it would be under a military or dictator rule.

Age 17 Because if they can criticize anyone else why not the elected government official.

Adults Some criticism makes people think and discuss. It could prove an individuals mind into thinking for himself and discussion could open a closed mind.

33 = MAY PUBLISH STATEMENTS THAT ARE NOT TRUE

Age 13 Because the paper or magazine may not know the facts or some of the facts could be changed around and mean something false.

Age 17 Most of the papers that are published and criticize a person it is not true anyway. Sometimes it make the person look and feel awful.

Adults No, I don't think that the reporters should be able to do this because everyone is entitled to a mistake.

Categories and sample responses are listed below.

21 = IT ISN'T FAIR; MAY HURT THE OFFICIAL

| | |
|---|---|
| Age 13 | It is not nice and he may get mad.<br>Because it may be embarassing for him. |
| Age 17 | No, because the man that's elected is trying to do his job.<br>No, because it would ruin the reputation of the official. |
| Adults | No samples given. |

22 = PAPER SHOULD NOT CRITICIZE--NO REASON GIVEN

| | |
|---|---|
| Age 13 | Because that is not right. |
| Age 17 | Because it is none of their business. |
| Adults | No samples given. |

23 = WOULD DESTROY PEOPLE'S CONFIDENCE IN GOVERNMENT; START RIOTS

| | |
|---|---|
| Age 13 | Because this could cause a real big confusion.<br>It hurts the pride of the government. Some people can go up and try to take him out of office by force. |
| Age 17 | Because there might be a war. |
| Adults | I don't think it is right. It will hurt their power and respect for the government. Also this person would have a rough time being re-elected. |

25 = CONDITIONAL: OTHER CONDITIONS

| | |
|---|---|
| Age 13 | Undecided. My reason is because it depends on what the government official is being criticized on. |
| Age 17 | I think it depends on who the government official is, and also who the newspaper reporter is!<br>It would depend on how criticle the article was. |
| Adults | I believe so but only if the official has an opportunity to defend himself. |

29 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

| | |
|---|---|
| Age 13 | The publishers would be in trouble.<br>Because the government official might find out about it. |
| Age 17 | No, a constitutional amendment prohibits such action.<br>No, they are already elected so we should support them. |
| Adults | Newspapers and magazines should print news and be truthful and fair.<br>The people voted him or her in and so they should be with him and not against him. |

28 = I DON'T KNOW

**EXERCISE: RA808-01**

SCORING GUIDE: PART B

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = REFERENCE TO CONSTITUTIONAL RIGHTS OR APPROVAL OF THE RIGHT OF ASSEMBLY

Age 13 They have just as much right to free speech as I do.
Freedom of speech in America allows this. They should say what they think. The demonstration could change things by arousing other people that agree with them.
Age 17 Free Speech.
They should be given the right to express themselves. There is no law against them gathering together.
The consitution guarantees free speech for everyone.
This is provided for in our Constitution--freedom of assembly. They have the right to make their views known--freedom of speech. Just because they disagree with me means that they are wrong.
Adults The constitution gives them this right.
It is their right granted to all people to gather and to speak freely. They has as much right as people I might agree with have.
I think in a true democracy there should be freedom of expression in public places. No.

11 = YES, BUT CONSIDERS RIGHTS OF OTHERS

Age 13 They have the right but it could get out of hand.
Because it is public, anyone should be able to gather there, providing they do no destruction.
If there aren't any violent they should be allowed to have their say.
Age 17 They have a right to do what they want, as long as it doesn't disturb anyone else. A public place is for the public.
They have freedom of assembly as long as they do not destroy property, make a lot of noise and disturb what other people are doing.
Adults Yes as long as it doesn't interfere with the rights of others and is conducted in a peaceful manner and they have a permit.
Well! Thats one of the bases of our country. We have a right to descent if it isn't of a violent nature.

Categories and sample responses are listed below.

12 = IT'S EDUCATIONAL TO HEAR DIFFERENT VIEWPOINTS EXPRESSED

| | |
|---|---|
| Age 13 | Because if they think something is right they should go out and try to prove it. |
| Age 17 | This shows people who are in that public place somethings they might not know.<br>Cause if they don't the other people don't know how they feel. By doing this they are showing other people they are interested in what they are doing. |
| Adults | No samples given. |

13 = INSTRUMENT FOR SOCIAL CHANGE

| | |
|---|---|
| Age 13 | I suppose they have a write to do this if they want the certain changes. |
| Age 17 | The people want action now! We can't wait for our city council or state government to do something, they take too long! We want they to get a clear picture of our feelings, and this is the way to do it! |
| Adults | Sometimes this is the only way officials recognize there are problems. |

14 = YES, AFTER GETTING PERMISSION

| | |
|---|---|
| Age 13 | If they have a permit. To express their own views. |
| Age 17 | Because they have rights just like I do. If they feel their rights are abused they have the right to assemble if they have a permit. |
| Adults | No samples given. |

15 = OTHER ACCEPTABLE RESPONSES

| | |
|---|---|
| Age 13 | No samples given. |
| Age 17 | They are just as equal as anyone else.<br>Respecting opinions of other, it's not right to put your own opinions above those of others without reasoning them out. |
| Adults | Just because I don't agree with them is no sign they cannot do this.<br>Their ideas will be as valid as my own. Just because we disagree there is no necessity to believe I must be right and they must be wrong. |

---

Categories and sample responses are listed below.

20 = OTHER CONDITIONAL RESPONSES

| | |
|---|---|
| Age 13 | Depends on what they were against. Maybe they want less income tax. I don't think they should be doing it because they could get in trouble. |
| Age 17 | If that's the only way they'll be heard. |
| Adults | Under certain conditions they should be allowed. |

21 = PARKS ARE FOR RECREATION

| | |
|---|---|
| Age 13 | A public park is a place for children to play in, not for people to come in and riot.<br>Public parks are not made for riots. Parks are used for recreation. |
| Age 17 | No samples given. |
| Adults | Public place is set up for people to enjoy it--to use it as a meeting place is wrong. |

22 = NO, THEY SHOULD NOT USE A PUBLIC PARK

| | |
|---|---|
| Age 13 | Because they should not use a public park.<br>No, the park is a public place where everybody can go, they can go some place else. |
| Age 17 | No samples given. |
| Adults | They should not be doing this in a public place. |

23 = THEY DO NOT HAVE THE RIGHT; THEY CANNOT USE A PUBLIC PARK

| | |
|---|---|
| Age 13 | Because they do not have the right to protest in a public place like a park. |
| Age 17 | They don't have the right to go around with signs and make a big deal of it. |
| Adults | No samples given. |

24 = NO, BECAUSE THEY MIGHT DO SOME HARM

| | |
|---|---|
| Age 13 | They make too much noise and screaming. They could murder somebody.<br>They might start a riot.<br>They disturb people in houses. |
| Age 17 | It only causes confusion and fighting. |
| Adults | No samples given. |

Categories and sample responses are listed below.

27 = ALTERNATE PROCEDURE

| | |
|---|---|
| Age 13 | They should vote on their grievance instead of crowding the park.<br>If they want to do something get petitions signed and give to people who can do something about the problem. |
| Age 17 | I feel as if these people want it bad enough there should be a place and they should fill it out on a card and then it should be taken into consideration. |
| Adults | I don't feel like this is the right way to go about it. If its change these people want they can do it through right channels, like civilized people. Resorting to change in this manner leads to mobs and riots--which is a report back to animalism--creates hate and resentment. |

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

| | |
|---|---|
| Age 13 | Those who disagree with them cannot go there and use the park at the same time.<br>Cause they aren't going to get nothing out of it. |
| Age 17 | What can they do just picketing like that. It's not going to help any.<br>Vote free. |
| Adults | Because of insufficient bathroom facilities for such a large group.<br>I just don't think they should--that's all. |

29 = I DON'T KNOW

**EXERCISE: RAR11-01**

Should people be allowed to gather in a public park to demand changes you do not agree with?

A. Do you think people should be allowed to picket the holding of a rock festival as a protest against it?

- ○ *Yes (Go to B)*
- ○ *No (Go to B)*
- ○ *Undecided (Go to B)*
- ○ *No response (After 10 seconds, go to C)*

B. Please give a reason for your answer.

*(After response OR if no response is given in 10 seconds, go to C.)*

(Continued)

C. Do you think people should be allowed to picket a police station to protest reported police brutality?

- ○ *Yes (Go to D)*
- ○ *No (Go to D)*
- ○ *Undecided (Go to D)*
- ○ *No response (After 10 seconds, go to next exercise)*

D. Please give a reason for your answer.

*(Stop if no response is given in 10 seconds.)*

Release #: RAR12

NAEP #: 502016-34

Theme: ATTITUDES.
Subtheme: Rights contained in the First Amendment.

Objective: V. HAVE A REASONED COMMITMENT TO THE VALUES THAT SUSTAIN A FREE SOCIETY.

Subobjective: B. Believe in the freedoms of the First Amendment and can justify their belief.

Exercise Type: Longer answer
Scoring Type: Semi-Professional
Administration Mode: Individual
Stimulus Type: Text

Timing: No paced tape was used in this individually administered exercise.

SCORING GUIDE: PART B

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = RECOGNIZES CONSTITUTIONAL FREEDOM OR RIGHT TO PICKET

| | |
|---|---|
| Age 17 | People have the right.<br>Bill of Rights--freedom of speech. I believe that orderly picketing can do no harm.<br>They have a right to picket things just as parents do. |
| Adults | Citizens of a democracy are guaranteed the right to protest.<br>This is a free country.<br>Picketing is a form of freedom of speech. |

11 = SHOULD BE ALLOWED - REFERENCES TO FAIRNESS

| | |
|---|---|
| Age 17 | If they can have a rock concert it is fair for the others to protest it.<br>If they weren't allowed to, no one else would be allowed to picket anything. |
| Adults | Its a free country--others are allowed to picket--why not if they want to? |

12 = CONDITIONAL: CONCERN FOR PUBLIC SAFETY (MUST GIVE YES OR UNDECIDED TO A)

| | |
|---|---|
| Age 17 | As long as it's peaceful. |
| Adults | Everybody should be allowed to express their own views as long as they don't infringe on the rights of others.<br>I think it is alright as long as it isn't of violent nature.<br>As long as they are peaceful and don't interrupt. They don't have a right to interrupt the festival but they can protest. |

13 = CONDITIONAL: LEGAL PERMISSION (MUST GIVE YES OR UNDECIDED TO A)

No samples given.

Categories and sample responses are listed below.

18 = YES, BUT INDICATES CONCERN ABOUT ROCK FESTIVAL PROBLEMS

Age 17 It is harming the lives of other people.

Like at Woodstock traffic was blocked and there was a problem of food and sanitation.

Because they would make a mess of the grounds.

Adults A lot of rock festivals are noted for having dope and they disturb the peace.

Well! From what I've seen most rock festivals seem to tear up the country side or where they hold it. If they want to stop the use of illegal drugs and pot they ought to be able to protest against it.

Because of the things that go on at a rock festival that shouldn't.

19 = OTHER ACCEPTABLE RESPONSES

All ages It would be one way to keep more people from going in and would show how you feel.

It's like any other public demonstration. It's an expression of their feelings.

20 = CONDITIONAL

Age 17 As long as they don't bother anybody and nobody bothers them.

Adults If that rock festival is interfering with their rights - if they think so - they have the right to protest.

If they are quiet about it.

21 = STATEMENTS WHICH WOULD NOT PERMIT PICKETING BECAUSE THEY SUPPORT OR SEE NOTHING WRONG WITH ROCK FESTIVALS

Age 17 Not a rock festival. It's an enjoyment for some people.

No one pickets a golf course and that may be their enjoyment. They paid to see it, they should be able to enjoy it.

I feel that a rock festival isn't hurting anyone and therefore should be no reason to protest it.

See no reason for not having the rock festival. Don't picket--just leave.

Adults Cause a rock festival is someplace where you're supposed to listen to music - not picket.

---

Categories and sample responses are listed below.

22 = INDICATION THAT PICKETING SHOWS DISRESPECT FOR THE LAW OR IS NOT RIGHT

No samples given.

23 = PEOPLE DO NOT HAVE A RIGHT TO PICKET, BECAUSE OTHER PEOPLE HAVE A RIGHT TO HAVE A ROCK FESTIVAL

Age 17 The old people have concerts, so why shouldn't the young people have the same right?

Adults If people want to go out and have a rock festival, I think they should be able to.

I feel it is going against constitutional rights of persons holding rock festivals. You have the right to attend or not attend, but just because you don't agree with the rock festival doesn't give you the right to picket it.

25 = ALTERNATE PROCEDURE

Age 17 I don't think people should go against something so many people like. They should compromise in a decent way.

They ought to take it to the law and get it worked out that way, and not take the law into their own hands.

They should find another way. If they don't like it, to talk to the mayor of the city or other city managers.

Adults I'm just against people protesting out in public. I think there's a way to do it without protesting.

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

Age 17 If they don't like rock music.

Why would they want to picket it?

They shouldn't be having rock festivals in the first place.

The people had to agree on it, for it to be there in the first place.

The people who protest are those who don't dig the younger generation.

Adults I'm basically against picketing. It could cause problems. Fights and hassles with the police.

If they want to they can, but I don't think it will help them.

29 = I DON'T KNOW

SCORING GUIDE: PART D

Categories and sample responses are listed below.

00 = NO RESPONSE

10 = RECOGNIZES CONSTITUTIONAL RIGHT TO PICKET

Age 17 Freedom of speech.
Freedom to do what they want. It is a free country.
They have the right to picket there. If police are beating on you, it's not right. Why not picket and see what you can do about it.

Adults We are given the right to protest in this country.
People have a right to picket peacefully if they can't agree. This is the only form they have of protesting.
In a true democracy, everyone has the right to voice their dissention.
They have the right to express their point of view. It's a way to say they disagree.
It is the right of the people to speak up and be heard without worry that they will pay for this right

11 = SHOULD BE ALLOWED - REFERENCES TO FAIRNESS

No samples given.

12 = CONDITIONAL: CONCERN FOR PUBLIC SAFETY (MUST GIVE YES OR UNDECIDED TO A)

All ages As long as it's a peaceful demonstration, I don't see that that's any problem.
Right to protest, but protest should not impair law enforcement.
People should have a right to protest as long as it did not disrupt the functioning of the people of the police department.

13 = CONDITIONAL: LEGAL PERMISSION (MUST GIVE YES OR UNDECIDED TO A)

No samples given.

---

Categories and sample responses are listed below.

14 = YES, BUT INDICATES CONCERN ABOUT THE PROBLEM OF BRUTALITY

Age 17 Because sometimes the cops get out of hand and let the power go to their heads.
If the truth comes out under pressure, it would either clear up the scandal or cause a constructive change on the part of the police.
Maybe it was a friend that got beat up for no reason at all.

Adults Not all policemen are right.
Keep the police from thinking they can do as they please because they carry guns and the name of the law on them.

15 = OTHER ACCEPTABLE RESPONSES

Age 17 If you feel something is wrong, make yourself heard.
A good way to express how you feel.

Adults It is a very effective means of a public expression.
This is a way to get publicity especially if there are some rumors of police brutality.

20 = CONDITIONAL

Age 17 Have the right to picket provided they have a sincere base for their protest.
If they have proof of it they should be able to protest it.
If it's in their community and it's real bad.
Maybe the person was wrong. If the police was armed then they should picket.

Adults If they have a good reason.
"Reported" police brutality is not necessarily valid. Proven police brutality may be a good reason for picketing a police station.

21 = STATEMENTS WHICH WOULD NOT PERMIT PICKETING BECAUSE THEY SUPPORT POLICE

Age 17 Police have to protect the public in any way they can.
The police department is put there to protect the people and their valuables, and if a policeman is charged with brutality he must have a good reason for having done it.

Adults Police just doing their job.
The policemen are our city government. Their job is hard and we have to support them if there is to be law and order.
Well maybe the prisoners did something they shouldn't have done, and they were trying to protect their selves.

Categories and sample responses are listed below.

22 = INDICATION THAT PICKETING SHOWS DISRESPECT FOR THE LAW OR IS NOT RIGHT

| | |
|---|---|
| Age 17 | I don't think people should go against the law. It is for our own protection. No one should destroy any police grounds or property. |
| Adults | I think picketing is all wrong to begin with.<br>We should respect the law. |

25 = ALTERNATE PROCEDURE

| | |
|---|---|
| Age 17 | That should be decided in court.<br>They should go to the police's superiors.<br>I think that to protest, it is a violent way in a sense. They could get better results if they were to find other means to get their point across. |
| Adults | Usually things like that can be brought up at city council meetings and have organized arguments. Picketing never accomplishes anything.<br>I think they can find other ways than by just walking around with signs. There are letters they could write or attend court sessions or things like this. |

28 = VAGUE, NONSENSICAL, AND OTHER UNACCEPTABLE RESPONSES

| | |
|---|---|
| Age 17 | I wouldn't but some others might.<br>The people who picket would be in sympathy with the victim.<br>That's useless, it won't do anything.<br>Because if they didn't see the brutality, they really don't know the truth about it. |
| Adults | Because, there is always a lot of stuff going on around a police station and people would just be in the way and they couldn't get their job done.<br>I really think the reports and actual facts have to be closely analized.<br>I don't feel picketing is the answer to any problem. I don't say there aren't cases of police brutality. If there is police brutality picketing would contribute more to the problem than help. |

29 = I DON'T KNOW
